## A Summer Spectacular Photography Day at Godinton House and Gardens: Flowers and Delphiniums, Panoramas and Lightroom

Learn to Make Effective Use of Depth of Field, How to Shoot and Process Panoramas in Lightroom at the Beautiful Godinton House and Gardens

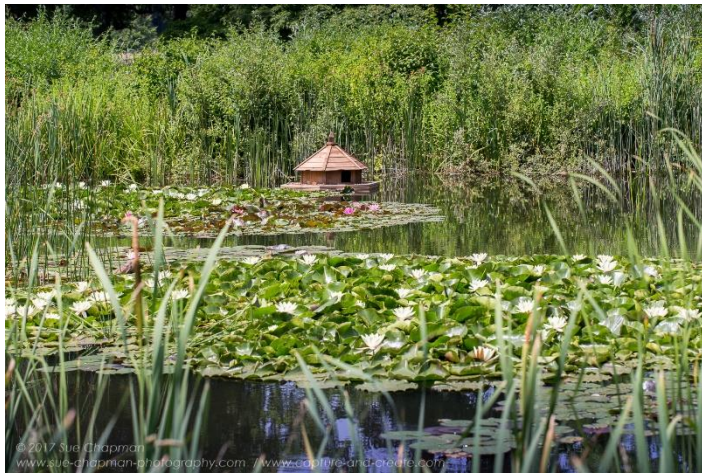

**5th June 2018**

Learn creative shooting techniques; making the most of depth of field and learning how to shoot panoramic images, including a gorgeous array of summer flowers in the frame. In the afternoon image editing session we will show you how to process your panoramas and give you tips and techniques to use with your photographs from the morning's shoot.

**Book Here: <http://capture-and-create.com/shop/summer-godinton-photographic-workshop/>**

Join us .....  
come sun or rain  
At

Godinton Gardens for a relaxing,  
informative day of photography  
with entrance, all refreshments  
and lunch included too.  
A photographers dream location  
with vegetable, Italian and  
wildlife gardens with pond.

# What are Photoshop Plug-ins?

## They are:

- add-on programs aimed at providing additional image effects often producing very creative and unusual / artistic designs.

# Why have Photoshop Plug-ins?

## They:

- Will perform tasks that are either impossible or hard to fulfil using Photoshop or LR alone.
- Will speed up image editing time.

# Editing from Lightroom.....

# Topaz Studio

The image shows a promotional banner for Topaz Studio. On the left, the Topaz Studio logo is displayed above the text "Topaz Studio" and "A Photographer's editing toolbox." Below this is a blue button labeled "FREE DOWNLOAD" and a link for "SYSTEM REQUIREMENTS". On the right, a screenshot of the Topaz Studio software interface is shown. The interface features a central workspace with a white flower image, a left sidebar with a gallery of images, and a right sidebar with various adjustment sliders and tools. A play button is overlaid on the central workspace image.

What do I get for Free? | What are Pro Adjustments?

# Topaz Clarity versus Detail

There are different technologies behind each plugin.

**Topaz Clarity** deals specifically with selective **contrast control** on four different variants of tone (micro, low, medium, high).

**Topaz Detail's** technology works best with creative and output **sharpening**. Both plugins have options to work with tone and colour, however it should be noted that the main technology behind each is that of :

**Clarity with contrast and Detail with sharpening**

# Topaz ReMask

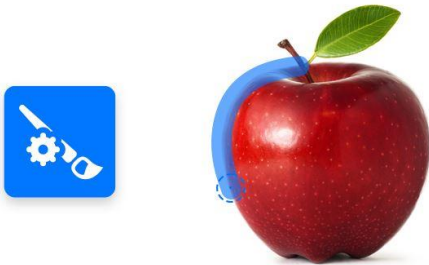

GETTING STARTED WITH  
**Topaz ReMask**

Learn the tools to achieve a perfect mask, everytime.

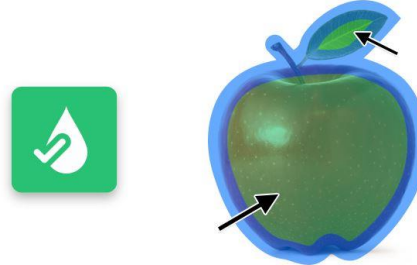

## Step 1

Use the compute brush to outline your subject for extraction.

## Step 2

Select which areas to keep with the green fill tool.

## Step 3

Select which areas to cut with the red fill tool.

## Step 4

Press 'Compute Mask' to calculate your mask based on the Trimap.

## Step 5

Refine your mask as needed with the brush and fill tools.

## DONE!

When you're happy with your mask, click 'OK' to return to your host program.

## Special effects for graphic designers
